### International Overdose Day

August 31, 2022

#### International Overdose Awareness Day

is the world's largest annual campaign to end overdose and remember those who have died without stigma and acknowledge the grief of the family and friends left behind.

The campaign raises awareness of overdose, which is one of the world's worst public health crises, and stimulates action and discussion about evidence-based overdose prevention and drug policy.

Thousands of people die each year from drug overdose.

Every person's life is valuable and stigmatizing people who use drugs needs to stop.

Every overdose death is preventable.
